

ENERGY POLICY MISSION STATEMENT

MISSION STATEMENT

Nylacast pride ourselves on being able to provide the customer with a complete Engineering Plastic Solution. The versatility of components Nylacast produce can be applied to many diverse applications across a range of industries including Construction, oil & gas, Pharmaceutical, Food processing, Rail, Water Treatment and Automotive.

Nylacast also recognise that environmental protection is one of the most important issues facing the world today.

Through continuous commitment of the Directors, Management and Staff, Nylacast is determined to identify potential for increased efficiency, implement waste minimisation, monitor and reduce energy consumption and our consequential emissions of harmful greenhouse gases.

The Directors are especially committed to supporting staff in the pursuance of the above aims and understand the value placed on their active involvement.

STATEMENT OF COMMITMENT

Nylacast as a responsible Business and property owner is committed to reducing, as a proportion of turnover activity our performance in the following:

- Energy efficiency
- Emissions of greenhouse gases
- Consumption of finite Fossil Fuels
- The environmental impact of all Nylacast activities

ENERGY MANAGEMENT SYSTEM

SHORT TERM MEASURES AND MEDIUM TERM OBJECTIVES

- Seek to reduce energy consumption and waste year on year
- Expect to increase our energy efficiency by 20% by 2017
- Monitor energy usage and undertake energy surveys
- Support all staff by providing advice and guidance
- Motivate staff to use energy efficiently
- Seek and secure funding support 'invest to save' projects
- Report successful energy saving initiatives
- To improve monitoring and targeting through effective sub metering

LONG TERM GOALS

The effective use of resources and to take a sustainable approach in what we do and how we do it. In order to optimize resources, our long term energy management goal is continuous improvement in the following areas.

- To reduce energy costs
- Maximise energy efficiency
- Reduce emissions of greenhouse gases
- Reduce consumption of finite fossil fuels
- Promote the importance of reducing the emissions of greenhouse gases to our partners

Nylacast seeks to achieve these goals by responsible energy management, promoting energy efficiency throughout its service operations, and where practicable using alternative renewable sources of energy, in line with EPOS legislation.
