

Job Title | Health, Safety & Environmental Engineer / Officer

Reporting to | Operations Director

Location | Viva Nylons, Leicester, LE5 0HJ **Hours** | 08:30–17:00 (Mon-Fri), 1-hour lunch

The Company

Viva Nylons are the UK's leading monomer cast nylon-6 manufacturer, producing a comprehensive range of semi-finished stock shapes, bespoke near-net-shape castings, cut-piece derivatives and custom cast components to a wide array of industries and applications.

As a trading division of The Nylacast Group, Viva Nylons is part of a worldwide leader in the design, manufacture, and supply of engineering plastic solutions, with a global brand presence and 9 worldwide locations.

The Role

Reporting directly to the Operations Director the HS&E Engineer / Officer will proactively work alongside the team to continually improve, develop and maintain Health, Safety & Environmental standards, risk assessments, safe working instructions and compliance throughout the division.

- Provides health and safety measures in a working environment
- Complete risk assessments and safe systems of work
- Conduct and report on management walk-around and audits
- Ensures that COVID-19 measures and procedures are constantly adhered to
- Monitor implementation of safety plans according to plans and objectives
- Identify and evaluate areas of improvement
- Identify and correct potential hazards by inspecting facilities, machinery, and safety equipment
- Monitor and track safety systems by using computer systems and spreadsheets
- Conduct accident investigations and follow-up root cause analysis
- Conduct and chair sub-committee and management meetings
- Conduct inductions, training and workshops
- Support on policies, procedures, bulletins and safety briefings / communication
- Complete health, safety and environmental reports as and when required

Experience & Requirements

- NEBOSH General Certificate is essential
- At least 5 years in a Health & Safety role
- ISO 14001 environmental management system experience
- Manufacturing/Engineering background would be advantageous
- Excellent communication skills / PC literate
- Ability to work on own and as part of a wider team
- Ability to manage and control all types of health and safety issues
- Ability to research and apply the best industrial and working practices to provide effective services
- Abreast with new changes in laws and regulations
- Strong command over verbal and written communication
- Ability to provide and implement plans, objectives and standards timely
